

Julio Sánchez Aniceto

Full Stack Web Developer

Palma de Mallorca, Spain · julio264edu@gmail.com · +34 631 559 311
julio-sanchez.vercel.app · github.com/juliosnchz264 · [LinkedIn](#)

SUMMARY

Full Stack Web Developer with 2+ years of experience building end-to-end web applications in PHP, JavaScript and React. Specialized in cybersecurity (Spanish Level 3 Vocational Certificate, SOIB) with hands-on expertise in penetration testing tools and secure development practices. Comfortable across the stack — from SQL to UI — with open source projects in modern stacks: Next.js, Supabase, Payload CMS and Node.js.

EXPERIENCE

Junior Web Developer · Refinería Web

Palma de Mallorca, Spain · March 2024 – June 2024

- Built WordPress sites and custom web applications with a PHP + React stack, covering the full development lifecycle from requirements to deployment.
- Optimized performance and responsive layouts on production projects, improving load times and cross-device experience.
- Implemented new features on existing WordPress themes and plugins for real clients, integrating Bootstrap and modern JS libraries.

Stack: PHP, WordPress, JavaScript, React, HTML/CSS, Bootstrap, Git.

Junior Web Developer (Internship) · ITCM Solutions

Palma de Mallorca, Spain · February 2022 – April 2022

- Built responsive web templates for hardware listings on eBay, integrating physical inventory with the digital catalog.
- Designed and queried MySQL databases for e-commerce product management.

Stack: PHP, MySQL, JavaScript, HTML/CSS, Bootstrap, Git.

OPEN SOURCE PROJECTS

Personal Portfolio julio-sanchez.vercel.app

Bilingual SSG portfolio with technical MDX blog, terminal-style animations and a custom design system.

Stack: Next.js 15 (App Router), React 19, TypeScript, Tailwind 4, next-intl, MDX + Shiki, Framer Motion.

Headless CMS Monorepo github.com/juliosnchz264

Monorepo architecture with a headless backend and two decoupled frontends, showcasing integration across different stacks on a shared CMS.

Stack: Next.js, Payload CMS, Astro, TypeScript.

Full Stack Social Network github.com/juliosnchz264

Social application with authentication, server/client state management and a relational database managed via Supabase.

Stack: React, TanStack Query, Zustand, Tailwind CSS, Supabase (PostgreSQL).

Full Stack E-commerce github.com/juliosnchz264

Online store with catalog, cart and REST backend. Frontend deployed on Vercel, API on Render. NoSQL persistence.

Stack: Node.js, MongoDB, React, Vite, Tailwind CSS.

EDUCATION

Higher Vocational Diploma in Web Application Development (DAW) · Edib Fleming · 2022 – 2024

Specialization in full stack development and databases.

Spanish Level 3 Vocational Certificate — Cybersecurity · SOIB · 2026

Penetration testing, secure development, vulnerability analysis, network hardening.

TECHNICAL STACK

Languages: JavaScript, TypeScript, PHP, Python, Java, HTML, CSS

Frontend: React, Next.js, Astro, Tailwind CSS, TanStack Query, Zustand, Vite, WordPress

Backend: Node.js, Laravel, Flask, Payload CMS

Databases: PostgreSQL, MySQL, MariaDB, Supabase, MongoDB

DevOps & Deployment: Docker, Linux (Debian/Kali), SSH, Git, Vercel, Render

Concepts: Clean Code, REST APIs, MVC, OOP, database design, secure development

CYBERSECURITY

Pentesting & Analysis: Nmap, Wireshark, SQLmap, Hydra, Aircrack-ng

Systems: Kali Linux, Debian, server hardening, SSH configuration, Docker in production

Networking: OSI model, network hardening, Windows vulnerabilities

Applied: integration of security best practices into web development

LANGUAGES

Spanish — Native

English — B2 (Upper Intermediate)

German — A2 (Basic)
